THE BOOK OF CONTROL

Synopsis

“The Book of Control” is a story about a boy, Michael, who realizes that he can control people and situations by writing things in his diary that all come true. He starts off using the diary to control his own fortunes. However, because of the power and control the diary seems to give him, he uses it to negatively affect his classmates. Eventually, his classmates find out and confront Michael. They urge him to destroy the diary and restore their friendship. The question is, will he?
